Profile

Computer Engineering undergraduate with strong academic performance and a solid foundation in problem-solving and analytical reasoning. Proven ability to complete technical assignments accurately within deadlines. Actively developing software engineering skills through projects, research exposure, and internships.

Education

Bachelor of Technology in Computer Engineering 2023 – 2027
Shah & Anchor Kutchhi Engineering College, Chembur CGPA: 8.9 / 10

Higher Secondary Certificate (HSC)
Shree Samarth Uccha Madhyamik Vidyalay, Pune

Secondary School Certificate (SSC)
Convent Girls High School, Prabhadevi

Technical Skills

Languages:	Python, Java, C, SQL
Databases:	MySQL
Tools:	Git, GitHub, VS Code
Platforms:	Windows, Linux, MacOS
Concepts:	DSA, OOP, DBMS

Projects

Food Waste Reduction Web Application

Technologies: Python, Django, HTML, CSS, SQLite

- Developed a Django-based web application to manage food listings and reduce food wastage.
- Implemented user authentication, backend logic, and database models using Django.
- Designed responsive frontend interfaces for improved user interaction.

Serverless Image Processing System (AWS)

Technologies: AWS (EC2, S3, IAM)

- Deployed a cloud-based application using EC2 instances and S3 storage.
- Gained hands-on experience with cloud deployment, security policies, and scalability concepts.

Quiz Application

Technologies: Java

- Developed a Java-based quiz application with multiple-choice questions and result evaluation.
- Implemented input handling, scoring logic, and program flow control.

Business Analyst Project – Myntra Analysis

- Conducted business and data analysis on Myntra to study customer behavior, sales trends, and product performance
- Created dashboards and reports using Excel/Power BI to visualize key metrics and support decision-making
- Generated insights and recommendations to improve customer experience, marketing strategies, and overall sales performance

Certifications

- Cisco: C Programming, Networking Basics, Introduction to IoT
- Infosys Springboard: Enterprise Java Beans (EJB), User Interface Design
- IIT Bombay Spoken Tutorial: Java, C, Python

Achievements & Activities

General Co-Ordinator – SAKEC AICTE IDEA LAB

- Coordinated student-driven technical and research projects under the Idea lab.
- Acted as a liaison between faculty coordinators and student teams.
- Designed and executed all graphic content for Idea Lab including posters, banners, certificates, presentations, and social media creatives.

Internship Co-Ordinator — Placement Cell

- Acted as a point of contact for HR teams and company representatives.
- Maintained internship records, databases, and feedback reports.
- Handled complete graphics and creative work for Placement Cell including internship posters, announcements, company creatives, and event promotions.

Soft Skills

Problem Solving - Analytical Thinking - Team Coordination - Communication - Time Management - Leadership Qualities
